INTRODUCTION

Leadership in the 21st Century Adventist Church presents many challenges. Since 1995, our church has grown at an average annual rate of 5.23 percent. Most of this growth has taken place in Sub-Saharan Africa, Latin America, and Southeast Asia. This growth has significantly changed the ethnic and racial complexion of the church.

More than ten years ago, *Adventist Review* editor William G. Johnsson wrote a book entitled *The Fragmenting of Adventism*. That book described ten issues that were facing the church in 1995, some of which threatened to split the church. Under the blessing of God, the church has not split and is still strong. However, many of the issues that threatened the church then continue to impact significant segments of the church today.

In addition to these internal stresses, external forces also threaten to invade the church. Increasing secularism and secular humanism in many parts of the world influence our thought processes and make it easier for our institutions and organizations to edge ever closer to the world. Materialism, rampant in the secular world, is an ever threatening danger to the church and to its members.

In view of these and other challenges faced by church leaders, time was set aside at the 58th General Conference Session in July, 2005, to consider the characteristics needed by leaders in the 21st Century Adventist Church. Five presentations focused on the character and personality of Adventist leaders, with special emphasis on responsibility, integrity, the role and scope of ecclesiastical authority, and responsiveness to diversity. These presentations have been printed and bound into a booklet called "Profiling Adventist Leadership."

This workshop, prepared for church leaders around the world, is based on those presentations. It addresses such important questions as

1

How church leaders can act with responsibility, and how they should deal with irresponsible behavior.

2

Why integrity is important for leaders and church organizations in the 21st Century, and how leaders and church entities can ensure that they act with integrity.

3

The nature and scope of ecclesiastical authority, and how church leaders should respond to it.

4

Why responsiveness to diversity is an essential quality for leaders in our global church, and how leaders can develop this quality.

Some of the issues the workshop addresses are very sensitive and may reveal changes that we need to make in our leadership practices. These issues are not meant to offend; rather they are addressed in order that we may become more effective leaders as we grow and work together to hasten the coming of our Lord.

This workshop is intended for church leaders at every leadership level from the local church on up. It has been prepared with the prayer that each leader who attends may be blessed and strengthened to meet the challenges the Adventist Church faces in this Century.

IMPORTANT INFORMATION ABOUT THESE WORKSHEETS

There is a worksheet for each one of the PowerPoint sessions in this booklet. The worksheets are divided into two sections.

You should fill out the first section of each worksheet during the PowerPoint presentation. Each question on the sheet is matched with the slide number where you can find the answer. The slide numbers are in the upper right-hand corner of each slide as they are shown on the screen.

Try not to spend too much time reading the questions on the worksheets. Focus instead on the material that is being presented on the screen. You will miss important information if you spend too much time reading the questions.

The second section of each worksheet consists of Questions for Further Study for that session. You should answer these questions after the PowerPoint session. If you do not have time to answer these during the workshop, you can fill in the answers later when you return home. At the end of each question, you will find the slide number(s) where you can locate the answer(s) for that question. These questions are the same as those that are shown on the screen near the beginning of each PowerPoint session.

Once again, we wish you God's rich blessing as you participate in the Leadership Workshop for the leaders in your area. As you look to Jesus, the Model Leader, and as you strive to become more like Him, your leadership experience will draw those who follow you to know Him, Whom to know is life eternal. May the hymn below be the prayer of every Adventist leader.

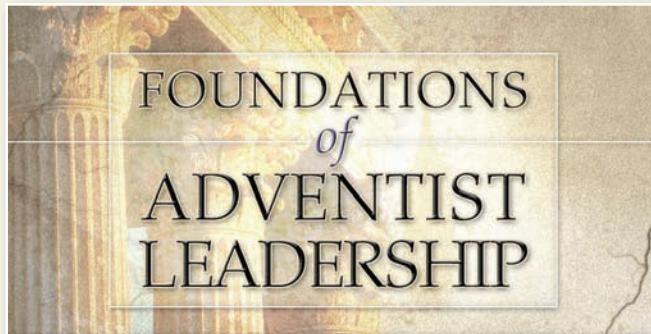

Not I, but Christ, be honored, loved, exalted;
Not I, but Christ, be seen, be known, be heard;
Not I, but Christ, in every look and action,
Not I, but Christ, in every thought and word.

Not I, but Christ, to gently soothe in sorrow,
Not I, but Christ, to wipe the falling tear;
Not I, but Christ; to lift the weary burden,
Not I, but Christ, to hush away all fear.

Christ, only Christ! No idle words e'er falling,
Christ, only Christ; no needless bustling sound;
Christ, only Christ; no self important bearing;
Christ, only Christ; no trace of "I" be found.

Not I, but Christ, my every need supplying,
Not I, but Christ, my strength and health to be;
Christ, only Christ, for body, soul, and spirit,
Christ, only Christ, here and eternally.
